

Love your floor

Experienced family-run company Woodrow Hardwood Flooring Consultants can add value and class to your home with one of its unique leather or hardwood floors

Woodrow Hardwood Flooring Consultants is a family-run business offering superb design, craftsmanship and quality products to clients throughout London and the Home Counties. The company, which has been providing flooring to clients for over 20 years, has a fantastic name for quality, and clients include both local and national residents and celebrities: actor Simon Callow says that Woodrow 'did an impeccable, swift and tidy job for me, which considering it involved relaying my entire floor is nothing short of miraculous'.

Apart from the fantastic quality of both craftsmanship and design, Woodrow is also well known for using products and suppliers that cannot be found at other flooring retailers. The company is one of the first in the UK to offer leather tiles for both floor and walls; luxurious and glossy, leather is decadently desirable for its smooth feel, warmth underfoot, rich colour and unmistakably classy aroma, and makes a beautiful and natural addition to your home for that classic and sophisticated look.

Each leather tile has its own individual characteristics containing the marks and grains of its origin, a feature that makes a leather floor laid by Woodrow utterly unique.

Woodrow also offers hardwood flooring. Again, each floor has its own individual characteristics, as no two hardwood floors are the same. There are many different shades, patterns and woods available, including beech, cherry, French chestnut, French oak and maple, and all look exquisite when laid with Woodrow's expertise and attention to detail. If you ask Woodrow to lay flooring in your home, be it wood or leather (and remember that the cathedral wide oak boards are now in stock), you will enjoy long-term beauty and value – and the envy of your friends!
